Dear Hal,

Thanks for your note.

Like Hoover's "Masters of Deceit", "Killing the Truth" is well titled! Many "documentary" videos are in the stores.

Judge Haggerty says Shaw duped the jury and perjured himself. Louis Ivon goes further in what Ferrie said. Numa Bertel backs up Garrison. Stone quotes Marina as saying LHO knew Ron Lewis!

Oleg Nechiporenko says the truth lies in New Orleans.

But what has impact is the Z and Nix film. A new generation says, "The emperor has no clothes!" Why are so many documents suppressed today?

Hal, if we can't have the truth about an event of thirty years ago, how can we assume we are getting the truth about events like Iran-Contra, Watergate etc.

We can't. Mailer is working on JFK. The publicity the former book got makes the media look as bad as the paranoids say you resort to it."

But "Case Closed" was so bad I can't believe an agenda to promote a fiction was not present.

Sincerely,

P.S. ENCLOSED IS AN EXAMPLE OF BLAME — THE KENNEDY FAMILY!
